(PRICING ON PAGE 9)

UltraMused strives to make  
**You and your product** to look  
your best.

# WELCOME TO ULTRAMUSED

## CURT ANDERSON

Director

Educated in the San Francisco Bay area, (**SFSU / AAU**) I've spent the last 10 years building websites for companies and artists. But I have been really unfilled. During the pandemic of 2020, I felt it was time for change, I decided it was time for a **career change**, and have started this small **film production company** with the intention of doing **Drone** and **Real Estate Photography/Videography, Small Business Commercials, and Music Videos** featuring talented up and coming artists from LA.

There's lots more to tell about my personal life story, my trials and tribulations etc, but I won't bore you with that, if you are curious just ask! This brochure is designed to give you quick look at my work and advise you of UltraMused's pricing.

## Education

Bachelor of Science  
Business (Information Systems)

**SAN FRANCISCO**  
STATE UNIVERSITY

FAA Part 107  
Drone Pilot Training  
PilotInstitute.com

Associates  
Fine Art (Drawing/Painting)  
Film (Motion Pictures & Television)

**ACADEMY** of ART  
UNIVERSITY

# WHAT CAN **ULTRAMUSED** DO FOR YOU? (SERVICES)

**INSURED** for \$2,000,000+  
(3 Policies, Drone, Interior, and Damage)

**Drones** - UltraMused is starting out using the popular **DJI Mavic Mini 2**.

UltraMused will be upgrading to **FPV** and the **Air 2S**, as soon as the budget allows. **Curt Anderson is a Licensed FAA Part 107 Commercial Pilot** ready to take on filming jobs in **Hollywood / LA**.

**Photography** - Whether we're photographing your small business or a realty property, UltraMused has a suite of camera's ready to fit the projects needs, such as the legendary **Sony Alpha 7s ii, Movi Robot, and GoPro Hero 8**.

**SONY**  
**α**

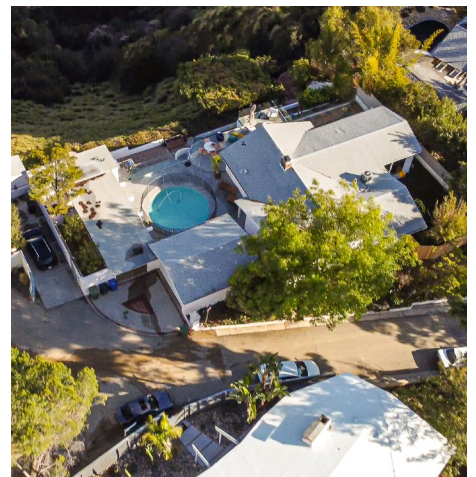

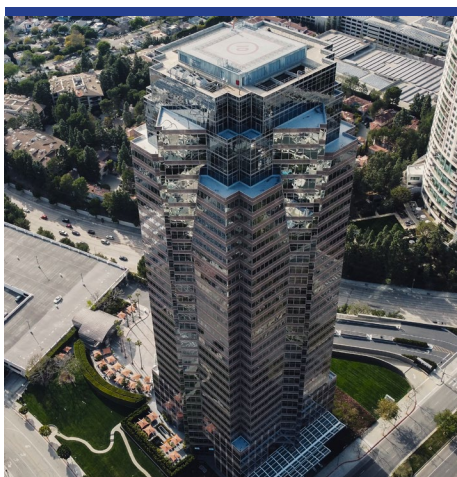

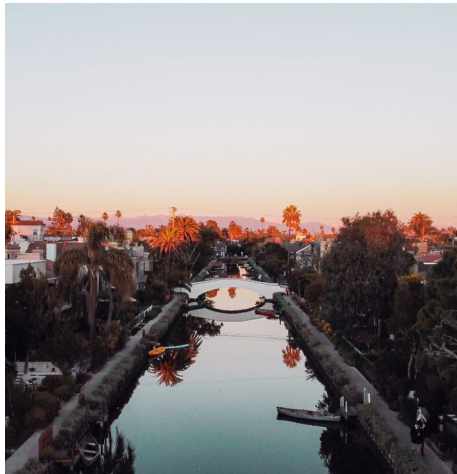

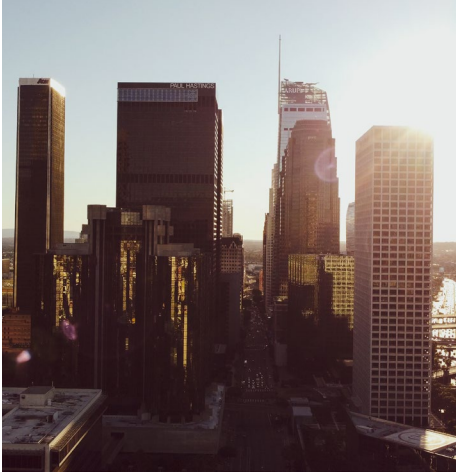

**Videography** - Perhaps you want to sell your product with a short video or even a full commercial with you or a spokesperson talking to camera. UltraMused uses state of the **image stabilizing gimbals**, and **tripods** to make sure your footage always has that **perfectly smooth/professional** look.

**360 Virtual Reality Tours** - UltraMused is right at the forefront of this exciting new technology. Using Asteroom, I can place a Tripod in a house and take 360's and then put them together on the computer for a **full 3D VR "dollhouse" tour**, similar to being in a video game!

# Drone Photography Examples

# Our Mission

My entire previous career I had been building extremely large **websites & projects** filled with graphics and videos all intended to make my client look their best.

During this time I created one of the **highest trafficked Art Websites** on earth.

[Urban-Muse.com](http://Urban-Muse.com)

Urban-Muse.com has **300,000+ fans** on Facebook, and at it's peak was getting upwards of **2 Million impressions per week**.

I intend to take these excellent work practices and continue to do the same thing, but using **Photography and Videography** created by myself.

**Los Angeles / Hollywood**, is the **big leagues** and competition is going to be fierce, but I feel that by providing a **good high quality product at a fair price**, while having a **friendly and easy going personality** that will put my clients at ease, I will have a good chance at success, because they know they are going to get the best from a **proven professional**.

My long term goal is to focus on **Music Video Production**, starting with small artists, gradually getting bigger and more mainstream.

ULTRAMUSEUM

# PRICING
